## Experience

July 2015 - Present Atlas Air, Inc

### eLearning Developer/Multimedia/ Instructional Designer

Creation of engage distant learning modules using Storyline 2 with a customized AtlasU template, deployed to new hire and recurrent pilots on their computers and iPads. Rapid prototyping of new features and ideas. Testing and troubleshooting in the AtlasU LMS sandbox. Production of multimedia materials for distant learning and company use, including graphic design, PDFs, PowerPoints, motion graphics and animations. Phone, email, and in-person technical support for distant learning users, instructors, and management.

January 2011 - July 2015 Miami Dade College

### eLearning Developer/Multimedia/ Instructional Designer

Assist professors with the integration of their course material inside the LMS. Set up course overviews, objectives, tasks, and activities. Lead role in eLearning development and multimedia creation (learning objects, videos, presentations, and graphics). Make sure all elements meet 508 compliance requirements. Held workshops to demo and teach new software packages.

September 2008 - May 2011 Scientific Formulations, LLC

### Animation/ Graphic/ Web Design/ Video Editing

Produced informative videos for the consumer, to explain the purpose and importance of the company's product. Developed branding, print material, and graphics used for promotional and business elements.

May 2006 - August 2008 ArchieMD, Inc.

### 3D Artist/Animation/ Video Editing/ eLearning Developer

Created educational medical videos through research and guidance of an ER doctor. Covered a wide range of medical subject matter, such as cell functions, human anatomy, and surgery. Rapidly prototyped application wireframes and graphic user interfaces. Worked closely with programmers to quickly produce assets or revisions. Was assigned to several government grants.

February 2003 - November 2005 Invent-Tech, Inc.

### 3D Artist/Animation/Video Editing

3D design and animation client's invention ideas, with emphasis on functionality and interaction. Edited all the rendered footage. Communicated with different clients to further understand their ideas. Took on side projects for the company, including the company demo reel.

## Education
